SEEKING A DIRECT PRIMARY CARE PHYSICIAN (GREENVILLE, SC)

Tired of working long shifts with an overwhelming patient load? Come work at an innovative, family medicine practice where you can make a difference and work with a smaller number of patients, offering personalized care with extended appointments.

Who We Are:

[Ember Modern Medicine](#) is a direct primary care family medicine practice in downtown Greenville, South Carolina. We offer a more personalized approach to healthcare and direct access to our medical providers 24/7 for a fixed monthly cost without limits or co-pays. At Ember, we care for our patients' body, mind, and spirit. The right candidate will have a strong interest in direct primary care family medicine.

At our practice, the burnout typically associated with primary care is replaced with the unique satisfaction that comes when you have the time to form genuine connections with your patients.

What We Offer:

- Standard weekday hours with minimal weekend or after-hours commitments, allowing for a desirable work-life balance.
- Opportunity to provide top-tier care to 8 - 12 patients daily, maintaining a direct line of communications through phone, text, and email.
- Time to get to know your patients and provide personalized care at a slower pace.
- A stable income that is higher than the national average for primary care.

What We Are Looking For:

- Board-certified Med/Peds or Family Medicine physician who...
- Loves building long-term relationships with their patients in a primary care setting,
- Values the Direct Primary Care model and its innovative approach to healthcare,
- Wants to be part of a big idea, rather than a big industry, and
- Is a team player. There is no hierarchy here. We are looking for someone who will step up to help when needed - checking in a patient, answering a phone call, or simply extending a warm greeting to make our patients feel welcome.
